What is the QEP?

The Quality Enhancement Plan (QEP) is the component of the accreditation process that reflects and affirms the commitment of the Commission on Colleges to the enhancement of the quality of higher education and to the proposition that student learning is at the heart of the mission of all institutions of higher learning. By definition, the QEP describes a carefully designed course of action that addresses a well-defined and focused topic or issue related to enhancing student learning.

**QEP Goal/Purpose:** *To equip Oakwood University students with critical thinking skills that will enhance their educational experience.*

**Initiatives:**

1. Embed Critical Thinking skills within selected general education courses.
2. Provide professional development for faculty with an emphasis on how to integrate and assess critical thinking in writing.
3. Establish an office to coordinate the implementation of the QEP.
